**Mechanical Engineering (15 credits)** 2023

Université de Montreal, Montreal, QC

**DEC in Social Science with Mathematics Profile** 2023

John Abbott College, Sainte-Anne-de-Bellevue, QC

- Honor Roll Student (2021, 2022, 2023)

## PROJECTS

**Smog Imperfection/Server Hosting.** 2021-present

Personal Project

- The initial goal of this project was to have a sim racing server hosting 24h for all my friends to play on.
- The game is modded Assetto Corsa, a realistic driving sim. To play drive with friends, a server is required.
- There was three criteria to the project: Minimal lag, low cost hosting and easy customizability.
- I used an old Dell Tower my school threw out and first converted it to Linux Debian.
- Through Konsole, I downloaded necessary files for server hosting and customized the server to my liking.
- I opened up necessary ports and forwarded them for ease of access.
- Finally I setup a random weather cycle and map/ car rotations for a more enjoyable experience.

## WORK EXPERIENCE

**Prepose** June 2021–2022

Hopital Juif de Readaptation, Laval, QC

- Working around quick moving health care professionals, I learnt the importance of efficiency.

- Teamwork, a good team with motivation leads to good results.
- Organization, learned how to properly organize therapy appointment spreadsheets using excel
- Detail, ensured everything was in order and in it's place, therapy equipment stocked and patients satisfied.
- Confidence, socialized with lots of new people and learnt lots from working with them.

## VOLUNTEER WORK

### Position Title

Jan 2023

CHSLD Denis-Benjamin-Viger, Ile-Bizard, Quebec

- Every Wednesday for 3 hours, I would go to this assisted living facility and interact with the residents.
- Typical Wednesdays consisted of hosting games and creative activities giving the residents a chance to engage with each other.
- I also visited residents privately in their rooms. Some of the residents were shy at first so it was a great opportunity for me to hone my social skills.

## INTERESTS

<b>Experience Abroad</b>	I've been to Hong Kong, Taiwan, New Zealand, across Canada in the search for new experience and unreal sights.
<b>Reading</b>	I enjoy reading about new developments in the automotive industry, technological innovations, and component developments.
<b>Sports</b>	Cycling, Downhill Mountain Biking, Snowboarding, Trick Scooters, Skateboarding, Backpacking/Survival, Motorsports
<b>Passions</b>	My biggest passion in life is cars. From my birth to now I love everything about them. JDM, Euro, American, I love them all. I currently own a CF8 Accord which I'm restoring to its original glory. Doing some mechanical work, fixing interior electronics and doing body restoration on rusted out parts of the chassis. I also have my own car spotting/photography page for cool and unique cars I see at car meets and simply on the street.

I go fishing about 3 times a week. There is so much strategy involved in fishing. You have to know the waters, the geography, fish behavior, weather conditions, bait color and so much more.
